CA: Dossier suitable for Canadian market

Products protected by patents (SPC) in Poland are developed solely for the purpose of Regulatory Submissions or R&D purposes intended to support Regulatory Submissions. These products are not offered for sale or made available in countries where such products are subjected to patent (SPC) protection and where the offer for sale or any related activity constitutes patent infringement.

It is within the buyer's responsibility and liability to check the patent situation of the poduct in the import market(s).

Based on exemption under art.5(2) of the Regulation (EC) No 469/2009 concerning the supplementary protection certificate for medicinal products Apixaban, Ticagrelor, Dapagliflozin and Linagliptin, which are protected by SPCs in Poland, can be manufactured and offered only for the purpose of export to non-EU countries, provided all requirements of the Regulation are met.
